

Slow Digestion

A Frequent Form of Stomach Trouble
Readily Cured by Stuart's
Dyspepsia Tablets

This complaint constitutes one of the most common forms of dyspepsia. It is the name of those who ignore natural laws, and force the stomach to perform its function in a manner entirely at variance with the condition of both body and mind. Those whose pursuits oblige them to pass much of their time within doors; men of letters, and of business, whose minds are seldom perfectly relaxed; administrators, speculators, financiers, and the various professional men fall ready victims to it.

Slow digestion occurs in persons of all temperaments, and habits, but is most common in those of irritable, or nervous disposition, and anxious aspect of countenance, who are popularly characterized as "dyspeptic looking." Eating too rapidly is a common exciting cause of the disorder, as is also imperfect mastication of food from loss of teeth.

There is also a deficiency of the gastric juices, and an insufficiency of the motor and muscular churning movements of the stomach walls, and the food remains entirely too long in the organ, instead of being passed down into the small intestine at the proper time.

Even a dinner not exceeding the ordinary limits is followed at varying intervals, but usually within an hour, by a feeling of weight and oppression in the stomach. After the meal, the person experiences decided discomfort, and should even a light supper be taken, horrible nightmare and troubled dreams are certain to result.

"I should be quite well, if it were not necessary to eat" is a common statement made by sufferers from this form of stomach complaint. Many of them actually dread the approach of meal time, knowing what disagreeable symptoms they are sure to experience after eating; and would doubtless discontinue the ingestion of food into their stomachs altogether if it were possible to live without eating.

There is really no necessity whatever for depriving one's self of the pleasures of the table, or to starve the rest of the system because the stomach is derelict in its duty, and does not digest the food as quickly or as thoroughly as it should.

Stuart's Dyspepsia Tablets compel the stomach to perform its functions properly and assist it very materially in the discharge of its duties. A single grain of the principal digestive ingredient of these tablets being sufficient to digest 3,000 grains of food. They not only digest the food, however, but also tone up and strengthen the peristaltic glands, and the motor functions, so that the food will not remain in the stomach longer than necessary. Every case of slow digestion and all forms of dyspepsia are readily cured by the use of these tablets, which make up the gastric deficiency, and supply the disordered stomach with exactly the same digestive juices that are found in a healthy, vigorous stomach.

Purchase a package of these wonderful digestors from your druggist today for 50 cents and cure yourself of your dyspepsia. Send us your name and address, and we will forward you a sample package free.

Address: F. A. Stuart, Company, 150 Stuart Building, Marshall, Mich.

Successor to First Law School Blown Down.

The strong wind of Friday night blew down what was left of a building of considerable historical interest, the one west of the town of Litchfield, which has been erroneously featured on local souvenir cards as the "First Law School in America." In reality the building was the successor to the original law school on West Hill which D. C. Kilbourne has caused to be restored to its former appearance. In 1835 the famous law school taught by Judges Reeve and Gould closed, to be continued for several years by Judge Gould. After his death this law office has been tenanted by West Hill for dwelling purposes. It degenerated into a dark tenement, and later a source of fuel supply to needy citizens, so that for some time past merely the roof and frame work have been standing.

Military Tax Prosecution.

The first case of actual prosecution in the Hartford city court for failure to pay military commutation tax came up, Friday afternoon, when Ambrose B. Carter claimed exemption on the ground of disability. Mr. Carter presented a certificate of incapability from Post Surgeon Homan A. Tyler, but Lawrence A. Howard, who conducted the case for the city, thought that he ought to have presented the certificate before the warrant was issued. The case was continued a week. Nearly 100 warrants have been issued so far, and a great many taxpayers, alarmed at the campaign, have paid voluntarily.

Electricity for Power

CHANGE IN PRICE

The price to be charged to persons and corporations for alternating current electricity for power has been changed by the undersigned to take effect on September 1st, 1909, that is to say, all bills rendered as of September 1st, 1909, for alternating current electricity for power as shown by meter readings taken August 20-24, 1909, have been used since the last previous reading shall be according to the following schedule:

1 to 500 Kilowatt Hours, 5c per kilowatt hour.
Over 500 Kilowatt Hours, 5c for first 500 and 2c for each additional kilowatt hour.

EXAMPLE.
Number of K. W. H. used.....1000
500 K. W. H., at 5 cents.....\$25.00
500 K. W. H., at 2 cents..... 10.00
\$35.00

COMMITTEE TO VISIT COPENHAGEN

Determined Efforts by the National Geographic Society to Secure Dr. Cook's Data.

Washington, Nov. 4.—Refusing to be drawn into the Cook-Pearry north pole controversy, the state department today declined a request that it cable American Minister Egan at Copenhagen, to ask the University at Copenhagen permission to examine the records of Dr. Frederick A. Cook when they are submitted to that institution.

Three Members of Committee to Be Selected.

The request was made by a delegation from the National Geographic Society, which will appoint a committee to visit the foremost Danish scientific institution to which Dr. Cook is to submit his records. This committee will in all probability consist of three members who have already been virtually selected but not yet fully approved. The desire to have the request for permission to inspect the records called through official channels was made at a conference between Assistant Secretary of State Huntington Wilson and Messrs. Gannett, the government's chief geographer, and Edison, former president of the board of trade of Washington; Grosvenor, editor of the official organ of the society; Gore and Colville, all prominent members of the National Geographic Society, whose membership stretches through every state in the country.

Why the State Department Refused the Request.

The request was made on the ground that the examination would be by scientists of attainments particularly valuable for the adjustment of the polar problem, and representatives not only of the society, but of science generally in the United States.

Every effort was made to surround the delegations' visit with mystery, one of the members even denying the

identity when approached by a newspaper reporter.

The department took the request under advisement and later decided it could not accede to it. It was felt that such action would constitute official recognition of Commander Peary as against Dr. Cook, that any unusual action on its part might be interpreted as an endorsement of the claim of one or the other of the two explorers as to priority of discovery of the pole. The department has notified Secretary Grosvenor of the society of its attitude.

Anxious to Secure the Cook Data.

The members of the committee which will go to Copenhagen for the Geographic Society will be provided with the usual letters of introduction from the state department to the American diplomatic officers abroad asking that the committee be given all courtesies or assistance possible consistent with the official duties of the diplomatic representatives. Letters of this character are frequently issued to citizens of the United States traveling abroad.

Determined efforts will be made by the committee to secure the Cook data. Dr. Cook will be afforded every opportunity to place his records or any information bearing on the trip before the committee, which soon after its appointment will communicate with him directly.

This committee will advise Dr. Cook of the recent action of the society's board of managers in awarding the gold medal to Peary and a medal to Captain Bartlett, who navigated Peary's ship to the far north and back, and of virtually "marking time" as to other polar claims pending investigation and research. It will advise him of the committee's desire to have any data he may be willing to present.

LETTER'S LONG JOURNEY.

Went to England and Was Returned to Proper Destination in Shelton.

What is probably the longest journey a letter ever took in the effort to reach its destination in Shelton from Derby was that of a letter mailed by a firm in the Derby, Conn., postoffice for a Shelton dealer. The letter was mailed in Derby, September 21, and was received by D. N. Clark, to whom it was mailed, October 12.

The letter had been meantime to England and back, crossing the Atlantic twice in the effort to get across the Atlantic. When the letter was mailed it was with several others and it became stuck to another in such a way as to accompany its fellow to England before it was discovered that there were two instead of one. The excess of mucilage about the stamp of the one attached to the other and carried it along with the one that was intended to go to England. The order had been duplicated and mailed long before the letter returned.

Samuel Johnson's Bicentenary.

To celebrate the bicentenary of Samuel Johnson, an exhibition of manuscripts, rare editions and engravings has been arranged by Professor Tinker of Yale university. First editions of Johnson and Boswell will exhibit the library's unusually complete collection will be shown, together with interesting Johnsoniana from private libraries in New Haven. The Messrs. Keppel of New York will exhibit contemporary engravings from portraits of Johnson; A. E. Newton of Philadelphia has contributed several first editions; J. P. Morgan has lent from his library some Johnson manuscripts and R. B. Adams of Buffalo has sent the manuscripts, autograph letters and other Johnsoniana gathered by his father, the late R. B. Adams, a remarkable collection known to all Johnson enthusiasts. The exhibition will be open to the public each afternoon of this week from one until five o'clock.—New Haven Palladium.

Mount Holyoke Association.

The Mount Holyoke Alumnae association of New Haven and vicinity elected the following officers at the annual meeting of the association held Saturday at the home of the president, Dr. Mary P. Dole, on Elm street: Honorary president, Mrs. W. H. Fairchild; president, Dr. Mary P. Dole; vice presidents, Mrs. J. W. Beach, Mrs. B. R. Bradley, Miss Emily Beach, Miss Mildred Finch and Miss Jessie McWilliams; recording secretary, Mrs. Eugene Allyn; assistant recording secretary, Miss Vera A. W. Timm; corresponding secretary, Mrs. John Alden; treasurer, Miss Ella E. Smith; assistant treasurer, Miss Helen Evans of Derby; auditor, Miss Amelia S. Dickerman; directors, Miss Lottie Bishop, Miss Miriam Kelly and Miss Grace Taylor.

Still in the Dry Column.

The town of New Hartford, although voting for license by a majority of twelve at the recent election, must remain dry another year because of the fact that the call for the town meeting was published in a newspaper four days previous to the meeting instead of five, as provided by law.

Big Government Order.

Portland employees of the New England Enameling company are glad to hear that the company has secured a large government order to be shipped to Panama. Report has it that the Portland branch of the company is to start operations soon.

PEST OF DEER.

Bristol Farmer's Crops Ruined by Herd of Five.

George F. Holman, who owns a farm near Cedar Swamp, Bristol, would like to know how to get deer away from his premises. He went to Bristol a day or two ago, and had a conference with Chief of Police Beiden about the proper method to employ. Mr. Holman bought a farm in that section a couple of years ago and started farming. He says that deer farmers thereabouts, and that a herd of five are camping out in the rear of his farm, making frequent excursions into his crops. Another farmer, named Hubbard, has been relieved of a good crop of Hubbard squashes by the deer and numerous other depredations have been made by the animals. Chief Beiden recommended that Holman write to the game warden.

DIVORCE GRANTED.

Mrs. Jessie MacDonald Downs Also Receives Alimony.

In the superior court at Bridgeport Justice Burdett handed down a decision Tuesday granting a divorce and alimony to Mrs. Jessie MacDonald Downs from Judge Nicholas C. Downs of Stamford. The testimony was taken by Charles E. Canfield, a committee to hear the testimony and make a finding. Mr. Canfield found that the couple had been married in 1885, and that the defendant had deserted his wife since 1900. The court accepted the report and allows the divorce and grants to the plaintiff that she shall be paid \$900 a year alimony.

To Succeed Edward T. Horn.

It is stated that Frederick Hoppe, for twenty years a competent official at the eastern end of the New Haven system, has received the appointment to succeed Edward T. Horn as assistant superintendent of the Shore line division of the New Haven road, with headquarters in New Haven. Mr. Horn left the employ of the road because of continued ill health.

FREIGHT RECORDS BROKEN.

One Thousand, Eight Hundred and Fifty-Seven Cars Despatched from Waterbury Last Week.

Two more records were broken by the freight department of the New Haven road at Waterbury last week, and to handle the large business it has been necessary to put on a large force of extra men. During the week 3,554 cars of freight were handled, the best previous record being 3,450, made for the week of Sept. 3. One thousand, eight hundred and fifty-seven cars of freight were despatched, which better the record made during the week of Oct. 1 by 112 cars. The number of inward cars was not as large last week as the yard record, however, for while 1,738 cars of freight were received during the week of Sept. 17, last week's total was 1,737.

To handle the increased freight the number of switchers in the yard has been increased from four to five. Sunday night was the busiest Sunday night in the yard on record. Three special freight trains arrived before midnight and four came in after midnight.

TEACHERS PROTEST.

Those in Meriden Schools Consider Frequent Examinations Unnecessary.

The Meriden Teachers' association filed with the school board Monday evening an important document, unsigned, which asks the board to discontinue the professional tests that teachers have been required to meet in the past in order to maintain their places in a given salary class. The communication labels the old course as an injustice after a teacher has shown her mental capacity. The regulations as applied to this part of a school teacher's life are also termed arbitrary and severe.

Superintendent Kelly, who had inaugurated the plan early in his local career, said he was perfectly willing that the teachers should have the ruling on this point adjusted. It was recommended that the four teachers whose salaries were reduced because they could not pass the tests be restored to their former salaries, which will call for \$150 from the town fund. The teachers' petition was laid on the table for one week.

Orrine Cured Him of DRUNKENNESS

Her Husband Now Spends His Evenings at Home.

She bought Orrine from the druggist in her home town—she bought it after reading the Orrine Free Booklet. In the Booklet she read of the wonderful cures of drunkenness which were accomplished by the aid of Orrine. On receipt of the Booklet she read the liberal guarantee to refund all money paid for Orrine if it failed to effect a cure. After reading the Booklet she became convinced that Orrine was a remedy of unusual merit. She decided to purchase it and cure her husband of drunkenness. Orrine cured him. Now she is a happy wife in a happy home. Orrine helped to purchase the home. Read the following letter from Walter K. Schmidt Co., 34 Canal St., Grand Rapids, Mich.:

"For a number of years we have been agents for Orrine. During that time we have had occasion to be convinced, beyond a doubt, that Orrine is a reliable remedy, worthy of recommendation. One of the many cases coming to our attention, a mechanic earning \$12.50 per week, who had not taken a full day's work for over five years, was induced to try Orrine, a complete cure being the result. The man became worth more to his firm, receiving an advance in pay, and has purchased a home. The housewife there now knows the merits of Orrine. We cannot help but feel that we were most fortunate when we secured the agency for this reliable liquor cure."

Orrine is prepared in two forms. No. 1, a powder, absolutely tasteless and odorless, given secretly in food or drink. Orrine No. 2, in pill form, is for those who wish to cure themselves. Orrine costs only \$1 a box. The guarantee is in each box. Write for Free Orrine Booklet (mailed in plain sealed envelope) to: Orrine Co., 34 Canal St., Building Washington, D. C. Orrine is for sale in this city by N. D. Sevin & Son.

They know Orrine is a reliable and efficacious remedy for drunkenness and they will not offer you a substitute.

Ranges and Stoves

If you want a good Range at a reasonable price — a Range that will bake well and save 1-3 the fuel you have been in the habit of using with that old one — then you should come and see us. We have just such a Range. Prices from \$18.00 up. Set up free gratis.

About Furniture

All we have to say is that we carry as fine a stock of Furniture as you will find in this city.

FOR FATTEST AND BIGGEST TURKEY RAISED, \$10

NEXT BEST \$5. THIRD \$5.

The Bulletin proposes to capture the three fattest and largest turkeys to be offered for the Thanksgiving market in Windham and New London Counties.

They must be natives—hatched and grown in these two counties. The Bulletin will buy the prize birds at the regular market price in addition to the prize to be awarded.

The turkeys offered for prize must have head and feathers off, entrails drawn and wings cut off at first joint.

The first prize of \$10, to the largest and fattest young turkey; second prize \$5, to the second largest and fattest young turkey; third prize of \$5, to the largest and fattest turkey raised in New London or Windham Counties.

The contest is open to any man, woman, boy or girl residing in these counties. The turkeys must be submitted for examination and weighing the Tuesday before Thanksgiving at 12 o'clock noon.

For the largest and fattest young turkey \$10 will be awarded in addition to the market price. This turkey will be given to the Rock Nook Home.

To the raiser of the second young turkey in size a prize of \$5 in addition to the market price will be given. This turkey will furnish the Thanksgiving dinner for the Sheltering Arms.

To the raiser of the largest and fattest turkey over a year old a prize of \$5 in addition to the market price. This will go to the County Home for Children for a Thanksgiving dinner.

The turkeys will be weighed by Somers Bros. at their market.
